Deposit Administration and Pension Saver Interest Rates

2 May 2023

This document is for you if you have one of the following Group Pension policies with ReAssure Ltd that is written in the Guardian Assurance With Profits Fund:

**Deposit Administration & Pension Saver**

## Basic Interest Rates

Deposit Administration and Pension Saver are group contracts where premiums less administration costs accumulate at basic interest rates plus bonus interest rates to provide amounts to meet scheme benefits.

You can find more information about how basic and bonus interest are added to different types of policy in our “A guide to how the fund is managed (group pensions)” document.

We also have a more detailed guide to our with-profits management strategy called 'Principles and Practices of Financial Management'. If you would like any of these documents, please ask us or download them from our website [www.reassure.co.uk](http://www.reassure.co.uk).

We usually review basic and bonus rates every year and we do not give advance notice when we change the rates. **Basic and Bonus Rates depend on the yields available from fixed interest investments; they may change or be removed at any time and are therefore not guaranteed**

**Basic Interest Rates** with effect from 2 May 2023 are shown in the table below:
